“ Our deepest fear is not that we are inadequate.
Our deepest fear is that we are powerful beyond measure.
It is our light, not our darkness, that most frightens us.
We ask ourselves, “Who am I to be brilliant, gorgeous,
talented and fabulous?”
Actually, who are you not to be?

You are a child of God.
Your playing small does not serve the world.
There is nothing enlightened about shrinking
so that other people won't feel insecure around you.
We were born to manifest the glory that is within us.
As we let our light shine we unconsciously
give other people permission to do the same.
As we are liberated from our own fear,
our presence automatically liberates others.”

-Marianne Williamson

“ Between the conscious and the unconscious, the mind has put up a
swing: all earth creatures, even the supernovas, sway between these two
trees, and it never winds down. Angels, animals, humans, insects by the
million, also the wheeling sun and moon; ages go by, and it goes on.
Everything is swinging: heaven, earth, water, fire, and the secret one
slowly growing a body. Kabir saw that for fifteen seconds, and it made
him a servant for life.”

-Kabir

“ The important thing is not to stop questioning. Curiosity has its own
reason for existing. One cannot help but be in awe when he contem-
plates the mysteries of eternity, of life, of the marvelous structure of
reality. It is enough if one tries merely to comprehend a little of this
mystery every day. Never lose a holy curiosity.”

-Albert Einstein
